### REPORT OF FOREST FIRE WARDEN AND STATE FOREST FIRE SERVICE

Prevention and control of forest fires is handled through a cooperative effort between town/city fire organizations and the State Forest Fire Service.

Since 1903, when the first forest fire laws were passed by our Legislature, the State Forester has appointed someone in each municipality as a Forest Fire Warden and charged him with the responsibility of forest fire prevention and control within his town/city. This person may ask the State Forester to appoint as many Deputy Forest Fire Wardens as may be necessary to efficiently carry out his charge.

The State Forester has divided the State into ten forest fire districts with a full time District Forest Fire Chief in each district. The State organization is charged with assisting the municipal forest fire organization in any way possible.

State personnel conduct fire training schools, assist with forest fire suppression, fire cause investigation, prosecution of fire law violators and forest fire prevention programs. Forest fire suppression equipment is purchased through State bulk purchasing ability and sold to local forest fire organizations at one-half cost. Excess military property is obtained and turned over to town/city fire departments at no cost to local departments for conversion into fire suppression units. This cooperative arrangement between State and municipality has resulted in one of the best forest fire records in the United States with less than one-half acre of woodland burned in each fire reported.

## TOWN OF LYMAN

To the Citizens of Grafton County:

In an effort to communicate more directly with the taxpaying citizens of Grafton County, we, the Grafton County Commissioners, are writing to you through your individual town or municipal reports.

Last year (1978-79) the total county tax raised was \$1,977,142.00. These monies were appropriated by the County Delegation and administered by the Commissioners. Some of the ways this money was spent was in maintenance of our courthouse, nursing home, county farm, sheriff's department, jail and house of correction, social welfare, etc.

The average number of patients in our nursing home is 140. The average daily census of the Jail/House of Correction is 25. We had a total of 349 inmates in the Jail and 114 inmates in the House of Correction during our fiscal year.

In addition to providing food for the nursing home complex and agricultural services for the community, the farm also continually shows a profit. In our fiscal year 1979 the farm profit was \$60,654, due in part to sales of pigs at \$5,500, cows at \$27,000, wood at \$1,800, hay at \$2,100, milk at \$135,444 and produce at \$48,129.

We have completed Phase II-Design of the sewage project and anticipate beginning construction under Phase III in the spring. The total overall cost of the project is approximately \$540,000, of which \$400,000 is federal grant, \$110,000 State share and \$30,000 County share.

We are making an effort to conserve energy, particularly in the courthouse building, and are taking a hard look at any modifications in this so called "modern" facility that will make it a less expensive consumer of fuel.

A trial dispatching service was instituted for 16 area fire departments and probably will be made a permanent function during the latter part of 1979. A yearly fee is charged for this service.

Grafton County employs 230 people of whom we are very proud. It is because of these people that Grafton County continues to operate efficiently and within budget.

There are many other concerns that we, the Commissioners, deal with. We invite the citizens of Grafton County to take part in any of our regular meetings held each Monday morning at the courthouse in North Haverhill.

### **from the North Country Council**

In Lyman, North Country Council assisted the Town by providing information on gravel pit ordinances and tax mapping.

This past year of 1979 saw a mixture of planning and action for the North Country Council, Inc. Major contributions were made in rural and economic development, local planning, and transportation.

In rural development, the Council assisted approximately twenty-five communities in taking positive steps on such concerns as housing, downtown revitalization, water supply, and solid waste. The council has helped communities obtain needed housing resources. Working with appropriate state and federal agencies, the Council assisted targeted communities by preparing applications and by providing information so decisions can be made. In economic development, the Council assisted two communities with steps toward the creation of parks which will provide a necessary place for additional jobs. Energy development activities have encouraged the development of indigenous resources such as wood and hydro power. NCC has also been active in helping local companies with loan applications and business counseling, and in assisting a targeted community with a revolving loan fund. Additional business development services will be provided during the coming year to encourage existing area and other in-state businesses to expand or locate so that more jobs can be provided in the North Country. An industrial brochure has been published which promotes the quality of life in the region and the resources available for small companies.

Local planning assistance, such as master planning, subdivision regulations, zoning, review of development proposals continues to be a major function of the Council. This activity will take on greater significance with the NH Supreme Court's emphasis on local master planning as a basis for local regulations.

Technical reports have been prepared on Mt. Washington Valley's Seasonal Population and on wetland evaluation and management. Brief and informative fact sheets on community investment strategies, land capability and wetlands are also available.

To advocate North Country transportation needs at the state and federal level, a Transportation Committee has been organized with representatives from different communities and transportation sectors.

The Council acts as a "regional spokesman" with membership on the Governor's Advisory Committee on Growth, the N.H. Environmental Law Clinic, and the State's Forestry Resources Committee. By sponsoring forums and conferences on growth in the forest industry, agricultural development, and regional land use, the Council has brought together people, ideas, and resources to generate appropriate solutions.

We believe that the Council has a program that can assist its rural communities in meeting the challenges and opportunities of the 1980s. The Board of Directors, the staff and the entire Council greatly appreciates the support your Town has provided in 1979 and over the last few years. Please call us at 823-8108 if the Council can be of service to your Town.

Respectfully submitted,

Gentlemen:

The support your Town has provided to the North Country Council has enabled the Council to provide a good deal of local and area services over the last year and previous years. The Council greatly appreciates this support. I am writing to respectfully request that the Town include an amount of \$220. in the Town Budget as its membership fee in the North Country Council for the period July 1, 1980 through June 30, 1981. Local financial resources are necessary in order to generate support from state and federal sources.

The regionwide request of \$55,000. represents a 5% increase over last year's request. As you know, membership figure is based on a formula giving equal weight to population and equalized assessed valuation. Increases in population or equalized assessed valuation may cause higher increases, but we have made sure that no increase is greater than 10% from last year.

Enclosed is a report on the Council's major activities during the last year both on a local and regional basis, which I hope could be published in the Town Report. A Council representative or I would welcome the opportunity to discuss with you the activities of the North Country Council and how we can be of further assistance to the Town in the future. Please call or write if you would like one of us to meet with the Town.

I want to thank you again for the financial assistance the town has provided to the North Country Council.

Sincerely,

from the North Country Home Health Agency, Inc.

North Country Home Health Agency provides services to people in their own homes who have health-related problems. Nursing visits are provided for the chronically ill, for care following hospitalization or for acute care in lieu of hospitalization. Physical Therapy and Speech Therapy are available to homebound patients. The Homemaker/Home Health Aides work with the nurses and therapists to assist with personal care, light housekeeping and meal preparation, and other health-related services aimed at keeping people independent in their own homes for as long as possible.

This year we added a program aimed at reducing child abuse through personal contact by Family Assistants with families which are not coping.

Our Public Health activities are aimed at prevention of disease, and include child immunization clinics, well-child conferences, handicapped children's clinics, adult health screenings and child dental screenings. Monthly well-child and immunization clinics are now held in both the Littleton and Haverhill areas, and three times a year in Lisbon and Lincoln. Health promotions for the assessment of problems and newborn visits to infants and mothers are also made. There is no charge for any of the clinics, health promotions or newborn visits.

North Country Home Health Agency serves 15 towns in a 1200 square mile area. Its main office is 60 High Street, Littleton, and there are satellite offices in Lincoln and Woodsville.

This amount is based on \$1.40 per capita, with 1978 population figures from the Bureau of Vital Statistics, N.H. Division of Public Health. This is an increase of \$.15 per capita from last year because of inflation and the increased cost of transportation and medical supplies.

EXECUTIVE DIRECTOR

WHITE MOUNTAINS  
REGION ASSOCIATION  
OF NEW HAMPSHIRE

LANCASTER, N.H. 03584 (603) 788-2061

1979 proved once again that the White Mountains Region needs tourism.

Have you ever seen a washout in March followed by a gasoline crisis? You did this year, and it pushed many businesses to the brink, and put a significant dent in the rooms and meals tax, business profits tax revenues, and many other tourism related tax revenues which aid Lyman. Yet, on the western side of the region, tourism accounts for 27.19%, or \$15,000,000, of the total annual payroll of that area, and on the eastern side of the region, 12.49%, or \$14,000,000.

Admittedly, without the support of all of the communities represented by the White Mountains Region Association, and flying in the face of economic predictions, the officers and directors courageously authorized the expenditure of \$17,000 in February to make the publication of the "Little Phone Book", and visitor Directory possible, and bring it into the homes of everyone in your community either in 1979 or 1980. What the directors correctly realized, as subsequently corroborated by a recent New England Regional Commission report, was that the primary reason why people visit New England was to visit friends and relatives. Thus, for this reason, the "Little Phone Book" and the WMRA visitor Directory, as part of the yellow pages, plays a useful role. Also, if trends continue, more people will be vacationing closer to home and here both the phone book and the visitor Directory will become an increasingly significant guide to vacationing/recreational activities in these mountains.

Therefore, your Region Association, in order to build upon this exciting project, as well as others, would respectfully request support for its work in 1980 from Lyman in the amount of **\$319.53**. The formula under which the Association makes this request is five (5) cents per \$1,000 of valuation based on the latest valuation table published by the NH Department of Revenue Administration. According to that table, Lyman's total equalized valuation was \$6,390,754. (Please use this as a guide, and put whatever is deemed affordable in the general budget article, if possible.)

May your Association close by requesting that you give this budget your **very** close attention. We are all a long way from major markets in northern New Hampshire, and without tourism we might as well plan on making some major downward adjustments in the lifestyles for ourselves, for our children, and for our neighbors. Given the intense competitive atmosphere in which the vacation travel industry will find itself in 1980, your Association would like to present to the traveling public a complete inventory of assets of what we in the White Mountains have to offer (it's alot!), but your Association simply cannot accomplish this goal without the help of all the communities.

Respectfully,

WHITE MOUNTAINS REGION ASSOCIATION  
George E. Foss III, President  
Edward G. Pinkerton, Executive Director

P.S. We receive **NO** federal funds, and only \$7,000 from the State to continue the Association's work. **Please note:** The State of New York this year will spend over \$10,000,000 for promotion and advertising alone, and that state has documented it receives \$4 - \$6 for every one (1) dollar invested in the "I Love NY" campaign. Dollars spent by your town in support of the White Mountains Region Association are invested dollars that pay dividends to this region and to your town.

P.P.S. We were told that Lyman did not support the Region Association in 1979, only to learn (after presstime) that you had. We sincerely regret this mistake, and hope that Lyman will support us in 1980. Do you like the Little Phone Books?

# THE LITTLETON HOSPITAL ASSOCIATION

107 Cottage Street  
Littleton, New Hampshire 03561

Phone 603-444-7731

James Locke, Chairman  
Board of Selectman  
Town of Lyman  
Lyman, NH 03585

Dear Mr. Locke:

I am writing on behalf of the Littleton Hospital Association to request that your Town appropriate \$500.00 for support of the Littleton Hospital. These funds will be utilized by the hospital to procure Capital Medical Equipment.

The relationship between a community service institution such as the Littleton Hospital and the community which that institution supports is an extremely close one. We, the members of the hospital team, are citizens of your community. We fulfill that unique support function of providing the highest quality acute health care to those in their time of need.

During the past year, with the individual support of many of our neighbors, Littleton Hospital has assumed a new look. The hospital is a completely modernized health care facility offering a fully staffed 24-hour emergency room, a highly qualified staff of family practitioners, general and orthopedic surgeons, an obstetrician-gynecologist, internal medicine and cardiac specialists. We have a full range of support services to include laboratory, X-Ray, nuclear medicine, physical therapy, and respiratory therapy.

I have enclosed for your consideration a fact sheet which outlines the statement of our case in support of our request for your favorable action. You might be interested to know that our records reflect that 6 residents of your community received hospital care here as an in-patient and many others were seen in our emergency room. Furthermore, we have provided almost \$175,000 worth of free medical services to residents of the area to include those in your community.

If it is appropriate that this request for appropriations be made in the form of a warrant article, please advise me of your town's procedure and we will endeavor to follow it.

We appreciate the support and consideration which you and your townspeople have traditionally rendered to the Littleton Hospital. I ask that you place this request for continued support and assistance before your 1980 Town Meeting.

Sincerely,

  
Leonard F. B. Reed, Jr.  
Acting Executive Director
